The Society meets on the second Wednesday of every month (No meeting in January) at the Oxley Bowls Club, Englefield Road, start time 7.30PM.

All Welcome.

Asctm. ampullaceum 'Kingston'

PRESIDENT'S MESSAGE

Good evening everyone good to see you all here, and I hope you enjoy tonight.

I am pleased to advise that Ryan Pretzler has agreed to take on the position of Secretary next year. Thank you Ryan.

Sonia will still carry out the duties of Show Secretary. Thank you Sonia.

The AOC Conference committee has donated 37 High-Viz vests to our society. These will be worn by volunteers at our show.

The matter of Society Tee-Shirts still remains. Anyone who would like a Tee-Shirt please put your name on the list tonight. Price will depend on how many we order.

Plans for our Christmas party have been finalised. Wednesday 14th December.

Arrive as 6.30pm for a 7.00pm start.

CONFIRMATION OF ATTENDANCE REQUIRED TONIGHT

We have to confirm numbers with the caterers.

Menu is various BBQ meats with a variety of salads and desserts. Contribution per member is \$15.00 per person. Payment is required tonight, alternatively obtain bank account details from Treasurer and pay promptly by EFT.

The bar will be open with a tab for soft drinks, however members must pay for their own alcohol.

Please bring a gift of approximately \$5.00 to \$10.00 for the rolling raffle. There will also be a lucky door prize, a hamper to the value of approximately \$120.00. Ensure you get your ticket from the Secretary.

Our guest speaker tonight is Callyn Farrel from Down Under Native Orchids.

Thank you all

Michael Connor

Neutrog Products by Sales Rep Brian

Sales Rep Brian introduced Neutrog Products at our October meeting.

Neutrog began in South Australia in 1988. It has created fertilisers that are nutrient rich and bacterially diverse based on poultry manure.

Before it's pelletised, chicken poo is inoculated, composted for 90 days, screened and steam treated – this process eradicates pathogens, parasites and weed seeds, maximises nutrients, and optimises the living microbiology. It creates fertilisers that are alive. Products have a wide range of applications from farming to horticulture to specialist growers like orchid enthusiasts.

Products include;

- Sudden Impact for Roses
- Strike Back for Orchids, Strike Back for Orchids is an organic based, chemically boosted fertiliser specifically developed to enhance the growth and flower development of orchids
- Seamungus, a soil and plant conditioner manufactured by brewing seaweed, fish, humic acid and manure.
- Gogo Juice, bacteria
- Bush Tucker, developed to meet the needs of *all* Australian native plants,
- POPUL8, an Advanced Soil Biological Formula developed and manufactured by Neutrog designed to not only enhance plant growth and nutrient cycling but to also populate and occupy the biological space in the soil and on plant roots which may otherwise be an available space for plant pathogens to inhabit. Hence its name POPUL8.

More information is available on their website.
